GELLATLY, B.C.

City Council

The Council met on Thursday
evening with all members present
except Ald. Gaddes.

A letter was read from Mr. R. L. Cliff of the Western Canadian Can Co., New Westminster, asking for a free site for a can factory and exemption from taxation for ten years, on condition that his Company would guarantee to start a can factory within two years' time. The matter was laid over till next meeting, and, in the meantime, Alds. Stirling and DeHart were appointed a committee to interview the Kelowna Cannery Co., Ltd., and ascertain their intentions in regard to putting in a can manufacturing plant.

Mr. Geo. Rowell submitted a plan of his new building on the north side of Bernard Ave., and it was approved.

The clerk was instructed to notify Mr. W. C. Clement to have the gates on the street by the agricultural grounds removed, and also to notify the secretary of the Club to have the soda and weeds taken away which had been deposited on the street from the Club grounds.

The clerk was also instructed to write the principal of the public school, forbidding the children to play on the streets near the school, as there had been so many complaints made about them.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct:

Office Specialty Co., filing
cabinet \$ 41.95
Cleaning streets 15.00
Fire Department 3.25

Mr. W. T. Ashbridge presented a report on the installation of an electric lighting system, which was thoroughly discussed by the Council with him. It was finally filed, and he was authorized to proceed with plans and specifications. We give a summary of his report elsewhere.

The Finance Committee were authorized to conduct negotiations for the sale of the city's 5 per cent debentures to the Dominion Security Corporation.

By-law No. 38 (\$5,000 for bridges) was read a third time, and By-law No. 40 (Kelowna Canning Co., exemption) was read a second and third time.

Dr. Boyce was given permission to place building material on the street during construction of a building on Bernard Ave., adjoining P. B. Willits & Co.

The Mayor, Alds. Gaddes, Buckland, DeHart and Curtis were appointed to sit on the Municipal Court of Revision.

Council adjourned to March 24th.

PUBLIC HEALTH BY-LAW WARNING!

The attention of all citizens is directed to the following extracts from By-law No. 8, and they are warned to be guided by the requirements laid down, under the penalties prescribed for default.

R. MORRISON,
City Clerk.

SEC. 21. No owner, tenant or occupant of land within the city limits shall suffer the accumulation upon his premises, or deposit, or permit to be deposited on any lot belonging to or occupied by him, anything which may endanger the public health, or deposit upon or into any street, square, lane, highway, wharf, dock or harbour or pond, any dead animal, fish, dirt, rubbish, excrement, dung, manure, offal, or other refuse, or vegetable or animal matter, or other filth or offensive thing.

SEC. 31. All closet boxes must be made of galvanized iron, or of wood lined with galvanized iron, and must be not less than 24 inches long, 14 inches wide and 14 inches deep.

SEC. 37. Any person guilty of an infraction of this By-law shall, upon summary conviction before the Police Magistrate for the city or any Justice of the Peace having jurisdiction over offences against the by-laws of the corporation, forfeit and pay a penalty in the discretion of the Police Magistrate or Justice of the Peace convicting, not exceeding the sum of One Hundred Dollars and costs of the prosecution for each offence, and, in default of payment thereof forthwith, it shall be lawful for the Police Magistrate or Justice so convicting as aforesaid to issue a warrant under his hand and seal to levy the said penalty and costs, or costs only, by distress and sale of the goods and chattels of the offender or offenders; and should there be no sufficient distress found out of which to

satisfy the said penalty and costs or penalty or costs only, it shall and may be lawful for the Police Magistrate or Justice of the Peace so convicting to commit the offender or offenders to the common goal in the said city or nearest lock-up house for any period not exceeding thirty days.

The Irish Dinner

Twenty-six of all nations sat down to the St. Patrick's Day dinner, and an enjoyable evening was spent under the genial chairmanship of Mr. E. R. Bailey, relieved later by Mr. E. J. Maguire.

We regret we have only space enough, owing to unforeseen pressure of advertising, to give the toast list and the names of gentlemen replying, while we would like to publish some of their eloquence.

"The King;" "Emerald Isle," F. A. Taylor and D. W. Crowley; "Kindred Countries," H. S. Rose and R. H. Parkinson; "Land We Live In," F. R. E. DeHart and S. T. Elliott; "Our Guests," D. W. Sutherland and G. C. Rose; "Commercial Interests," W. G. Benson and S. C. Cosens; "Old Folks at Home," G. W. Mappin and E. J. Maguire; "The Colleens," H. C. Childers; "England and Canada," D. W. Sutherland and R. H. Parkinson. Several special toasts were also honoured, including "Our Irish Friends," proposed by F. R. E. DeHart on behalf of the guests, and coupled with the name of Mr. J. Fetherstonhaugh, and the healths of the chairman and Mr. E. J. Maguire, who made all the arrangements for the dinner.

Songs were contributed with much acceptance by Messrs. D. W. Crowley, T. G. Speer, H. S. Rose, W. Garbutt and R. H. Parkinson, who also gave an excellent recitation.

Narrow Tires Unlawful

The following sections from the "Highway Traffic Regulation Act Amendment Act, 1908," passed at the recent session of the Provincial Legislature, are commended to the attention of farmers and loggers. No doubt there will be some complaint from those who will be compelled to buy new trucks and wagons or have expensive alterations made, but all should recognise that the law is very necessary to secure good roads, and it should have loyal support in all rural communities.

"2. It shall be unlawful for any waggon or vehicle carrying a load of more than two thousand pounds to be drawn or driven on any public highway, unless the tires of such waggon or vehicle shall be at least four inches in width.

"3. It shall be unlawful for any person or persons to drag logs or timber over or along any public highway.

"4. This Act shall not come into force so far as that portion of the Province of British Columbia situate east of the Cascade Range of mountains is concerned, until the 1st day of January, 1909."

Reading Notices following Local News—Published under heading "Business Locals," 15c per line, first insertion; 10c per line, each subsequent insertion. Minimum charge: first insertion, 50c; each subsequent insertion, 25c.

Contract Advertisements—Rates arranged according to space taken.

Contract advertisers will please notice that all changes of advertisements must be handed to the printer by Monday evening to ensure publication in the current issue.

THURSDAY, MARCH 26, 1908

HORTICULTURAL NOTES

Too Much Imported Stock

In 1907 the province imported one and a half million fruit and ornamental trees and shrubs.

For these an average price of not less than 25c. each was paid, making at least \$377,000 sent out of British Columbia for young trees.

Infected Stock Destroyed

The Vancouver Province of March 12th says: Five thousand fruit trees were yesterday cremated by order of Provincial Fruit Inspector Cunningham.

The nursery stock came from firms in the United States and was intended for shipment into the interior. It was found to be infected, and after proper notification the order for its destruction was given.

Mr. Cunningham states that nursery stock is now being brought over the line very rapidly, two carloads arriving this morning. The percentage which is being condemned is about the same as usual. The inspection is most thorough, as the inspector believes it is far easier to govern the health of the orchards of the province by preventing the planting of unhealthy trees than to eradicate the disease after it has gained a foothold.

Fruit Acreage Growing

Mr. Thomas Cunningham, Provincial Fruit Inspector, returned yesterday from Victoria, where he has been attending the semi-annual meeting of the Provincial Board of Horticulture.

The meeting opened at 10 o'clock on Tuesday morning and finished on Wednesday evening.

Among others present were Hon. Mr. Tatlow, Minister of Agriculture, and Mr. Martin Burrell, who has newly returned from a successful lecturing tour in the Old Country.

Reports before the meeting indicated great activity in horticulture all over the Province, and showed that the acreage to be planted during the coming season will be greater than ever before. Already there is enough nursery stock in sight to more than equal the whole of last year's planting. Nor is the growth of the fruit industry confined to any one district, but it extends evenly over the Province from Alberni to Fernie.

It was found the result of the fruit exhibits of the past year or two together with the campaign

of orchard cleansing is having a very wholesome effect, since it is encouraging men to put their money into horticulture without any fear of being put out of business by affected orchards.

Mr. Burrell spoke with enthusiasm of the success of his tour in the Old Country, one significant feature of which was that he found that men of means were now turning their attention in this direction, since the success of the fruit exhibits had satisfied investors in England that British Columbia has more than one or two resources. There may have been, as there have been in all countries, some disappointment in investments in mining and lumbering, but there has been none in horticulture—that alone has remained an unqualified success.

"As an instance of the fact that the market is not diminishing with the supply," said Mr. Cunningham. "I may mention that the very same quality of apples that were selling in this City for 75cents a box twenty years ago are now selling for \$2 a box. The market is simply growing faster than the supply."—News-Advertiser, March 20.

IT IS TO LAUGH

"Do you favour wider locks?" inquired the man who takes a mild interest in Panama affairs.

"I do," answered the bibulous citizen. "Also larger keyholes."

Hay-Maker Generals—Nit

A traveller in the South was passing through a certain populous country district, and stopped to converse with a farmer who had a considerable number of men at work in his hay-field.

"Most of these men are old soldiers," said the farmer. "You don't tell me! Were any of them officers?" "Two of them. One there was a private, and the man beyond was a corporal, but the man beyond him was a major, and that man away over yonder was a colonel." "Are they all good men?" "Well," replied the farmer, "I ain't going to say anything against any man that fought for the South. That private's a first-class man, and the colonel's pretty good, but I've made up my mind to one thing—I ain't going to hire any brigadier-generals."

OSOYOOS LAND DISTRICT DISTRICT OF YALE

Take notice that Stirling & Pitcairn, of Kelowna, B.C., Fruit Packers, intend to apply for permission to lease the following described land: Commencing at a post planted near high water mark of Okanagan Lake, about three chains north of the new wharf at South Okanagan, B.C.; thence in a southerly direction along the high water mark four chains; thence west to low water line; thence in a northerly direction along the low water line to a point due west of the point of commencement; thence east to the point of commencement; and containing half an acre, more or less. Dated at Kelowna, B.C., Feb. 19, 1908.

Stirling & Pitcairn, W. A. Pitcairn, Agent.

30-9

SEALED TENDERS addressed to undersigned, and endorsed "Tender for heating Post Office, Vancouver, B.C.," will be received at this office until Saturday, April 25th, 1908, inclusively, for the construction of a heating system for the Public Building at Vancouver, B.C.

Plans and specification can be seen and forms of tender obtained on application at this Department, from Mr. W. Henderson, Superintendent architect, Victoria, B.C., and from Mr. Charles Tossell, Clerk of Works, Vancouver, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order, FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, March 12, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department. 34-2

EXCISE CHANGE

In Tobacco Duties

The proposed changes in the excise duties on raw and manufactured tobacco, which have been anxiously awaited by the tobacco growers of Canada, have at last been announced in the House of Commons by the Minister of Finance. As was stated some time ago, the purpose of the changes in the incidence of the duties is to relieve the home-grown leaf of many of the disabilities under which it has hitherto laboured and to increase the duties on imported leaf.

At present, all imported raw tobaccos pay basic excise duties of 10c per lb. for unstemmed and 14c per lb. for stemmed, and also pay additional duties according to the purposes for which they are used. Tobacco used in ordinary tobacco factories, except for making cigarettes, pays 20c or 28c; for making cigarettes 37 1-2c or 53c; and in cigar factories, 10c or 23c per lb., for unstemmed or stemmed. Adding the basic duty of 10c per lb., foreign unstemmed tobacco used in cigar factories pays an excise duty of 20c per lb. on the leaf alone. Combination factories using native leaf along with imported have to pay this figure. In factories licensed to make cigars from imported leaf only, the manufacturers, however, pay only the basic duty, 10c or 14c per lb., and are also allowed a rebate of 10c per lb. on all their waste cuttings, about 35 per cent of the gross amount used, making the net duty payable on the tobacco used by them about 6c per lb. Against this, they have to pay an excise duty of \$6 per thousand on the completed cigars as against \$3 per thousand on cigars made from native leaf. Yet, the rebate on cuttings and low basic duty on the leaf enable them to practically drive out of the field the combination and all-native-leaf factories, both of which suffer the serious disadvantage of a distinguishing stamp, regarded by prejudiced smokers as a badge of inferiority.

The changes propose to sweep away all these invidious distinctions. Brands of cigars will receive no assistance from Government stamps, as all alike will bear the same stamp, whether made all of imported leaf, of a mixture of imported and native, or of native alone. Cigars will stand solely on their merits, and will be judged by smokers' tastes. The distinctions between factories will be swept away, and a measure of protection will be afforded native tobacco by the new incidence of duties. The basic rate will now be 28c per lb. on foreign unstemmed tobacco, with a duty of \$2 per thousand on the manufactured cigars. Cigars made from native tobacco will pay merely the excise duty of \$2 per thousand. All fine distinctions as to various kinds of factories will be abolished, only one kind of stamp will be used, and there will be no rebate on cuttings and waste from imported leaf. On purely native cigars, the result will be to give them the benefit of about \$4.50 per thousand less to pay in government taxes as compared with cigars made from imported leaf, as it takes about 16 lbs. of the latter to make one thousand cigars. At 28c per lb. duty on the leaf, this would mean \$4.50 to be added to the excise duty of \$2 per thousand on the cigars.

It is scarcely likely for some years to come, at any rate, that there will be any large quantity of cigars made from purely native leaf, as no doubt a blend will be necessary, but a large proportion of native tobacco can be used and a correspondingly large share of the protection be retained.

The changes are not to come into effect for some time yet, but when they do there is no question but what the tobacco industry in Canada, and particularly in our valley, will receive a great stimulus, and our growers are under a deep debt of gratitude to the Dominion government and especially to the Hon. Wm. Templeman, Minister of Inland Revenue, and Mr. Duncan Ross, M.P., for the heartfelt interest they have taken in securing the agreement of the Cabinet to such sweeping changes in the excise tariff.

ELECTRIC LIGHTING

Report By Mr. W. T. Ashbridge

We present herewith a condensed summary of the report made to the City Council by Mr. W. T. Ashbridge with reference to the installation of an electric lighting system for the town. The figures are very much in excess of previous rough estimates, and rather than see the far more important needs of water supply and fire protection shelved by spending on a lighting plant the bulk of the proceeds of the proposed issue of debentures, we hope the people of Kelowna will make up their minds to do without the luxury of electric light for a year or two and spend the money on a good water system instead. It is a pity we cannot have both, but it is evident in the present state of the money market it is not feasible to float sufficient bonds for both purposes. The estimate by Mr. Ashbridge is about double previous figures, and, assuming it to be correct,

if the cost of the water system should increase in like proportion, to put in both would mean an outlay of from \$60,000 to \$80,000,—somewhat staggering figures.

Electric light has no bearing on health one way or another, but water most distinctly has, and should the popular decision be for electric light, with water in a secondary position, there will be a disastrous awakening from a fool's paradise, should an epidemic of typhoid sweep the town or the business quarter go up in smoke.

Let "Water first, light after," be your motto!

Mr. Ashbridge recommends steam-power in preference to gas-producer on account of less initial cost and the latter being yet in a somewhat experimental stage. He suggests a 150 h.p. boiler and engine with 100 k.w. direct-connected generator, to be installed in a brick or concrete power-house large enough for future expansion of the plant, and situated near the lake for convenience in pumping, in the event of the installation of waterworks. His estimates are:

Power-house, brick or concrete	\$ 7,000
100 k.w. alternating generator, switchboard, transformers	5,700
150 h.p. boiler, 150 h.p. condensing engine, feed pump, condenser, heater, stack and piping	7,000
Distribution system, complete	6,300
Metres and service lines	2,000
Engineering and contingencies	2,000
Total	\$ 30,000

Estimates of revenue and expenditure based on 75 h.p. being used for six hours daily and 180 house services:

EXPENDITURE	
Interest on \$30,000	\$ 1,500
Sinking fund, 40-year debentures	350
Depreciation	2,000
Labour	2,000
Fuel, oil &c.	2,000
Total	\$ 7,850

INCOME	
180 house services at \$40 per annum	7,200
20 arc lamps at \$40	800
Total	\$ 8,000

Mr. Ashbridge considers the plant should meet expenses from the first year. He bases his figures on a metre rate of 15 cents per k.w. hour, which, he says, would be reasonable for steam-power.

OSOYOOS LAND DISTRICT DISTRICT OF YALE

Take notice that Stirling & Pitcairn, of Kelowna, B.C., Fruit Packers, intend to apply for permission to lease the following described land: Commencing at a post planted near high water mark of Okanagan Lake, about three chains north of the new wharf at South Okanagan, B.C.; thence in a southerly direction along the high water mark four chains; thence west to low water mark; thence in a northerly direction along the low water line to a point due west of the point of commencement; thence east to the point of commencement; and containing half an acre, more or less. Dated at Kelowna, B.C., Feb. 19, 1908.

Stirling & Pitcairn, W. A. Pitcairn, Agent.

30-9

SEALED TENDERS addressed to undersigned, and endorsed "Tender for heating Post Office, Vancouver, B.C.," will be received at this office until Saturday, April 25th, 1908, inclusively, for the construction of a heating system for the Public Building at Vancouver, B.C.

Plans and specification can be seen and forms of tender obtained on application at this Department, from Mr. W. Henderson, Superintendent architect, Victoria, B.C., and from Mr. Charles Tossell, Clerk of Works, Vancouver, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS,

Secretary.

Department of Public Works, Ottawa, March 12, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department. 34-2

EXCISE CHANGE In Tobacco Duties

The proposed changes in the excise duties on raw and manufactured tobacco, which have been anxiously awaited by the tobacco growers of Canada, have at last been announced in the House of Commons by the Minister of Finance. As was stated some time ago, the purpose of the changes in the incidence of the duties is to relieve the home-grown leaf of many of the disabilities under which it has hitherto laboured and to increase the duties on imported leaf.

At present, all imported raw tobaccos pay basic excise duties of 10c per lb. for unstemmed and 14c per lb. for stemmed, and also pay additional duties according to the purposes for which they are used. Tobacco used in ordinary tobacco factories, except for making cigarettes, pays 20c or 28c; for making cigarettes 37 1-2c or 53c; and in cigar factories, 10c or 28c per lb. for unstemmed or stemmed. Adding the basic duty of 10c per lb., foreign unstemmed tobacco used in cigar factories pays an excise duty of 20c per lb. on the leaf alone. Combination factories using native leaf along with imported have to pay this figure. In factories licensed to make cigars from imported leaf only, the manufacturers, however, pay only the basic duty, 10c or 14c per lb., and are also allowed a rebate of 10c per lb. on all their waste cuttings, about 35 per cent of the gross amount used, making the net duty payable on the tobacco used by them about 6c per lb. Against this, they have to pay an excise duty of \$6 per thousand on the completed cigars as against \$3 per thousand on cigars made from native leaf. Yet, the rebate on cuttings and low basic duty on the leaf enable them to practically drive out of the field the combination and all-native-leaf factories, both of which suffer the serious disadvantage of a distinguishing stamp, regarded by prejudiced smokers as a badge of inferiority.

The changes propose to sweep away all these invidious distinctions. Brands of cigars will receive no assistance from Government stamps, as all alike will bear the same stamp, whether made all of imported leaf, of a mixture of imported and native, or of native alone. Cigars will stand solely on their merits, and will be judged by smokers' tastes. The distinctions between factories will be swept away, and a measure of protection will be afforded native tobacco by the new incidence of duties. The basic rate will now be 28c per lb. on foreign unstemmed tobacco, with a duty of \$2 per thousand on the manufactured cigars. Cigars made from native tobacco will pay merely the excise duty of \$2 per thousand. All fine distinctions as to various kinds of factories will be abolished, only one kind of stamp will be used, and there will be no rebate on cuttings and waste from imported leaf. On purely native cigars, the result will be to give them the benefit of about \$4.50 per thousand less to pay in government taxes as compared with cigars made from imported leaf, as it takes about 16 lbs. of the latter to make one thousand cigars. At 28c per lb. duty on the leaf, this would mean \$4.50 to be added to the excise duty of \$2 per thousand on the cigars.

It is scarcely likely for some years to come, at any rate, that there will be any large quantity of cigars made from purely native leaf, as no doubt a blend will be necessary, but a large proportion of native tobacco can be used and a correspondingly large share of the protection be retained.

The changes are not to come into effect for some time yet, but when they do there is no question but what the tobacco industry in Canada, and particularly in our valley, will receive a great stimulus, and our growers are under a deep debt of gratitude to the Dominion government and especially to the Hon. Wm. Templeman, Minister of Inland Revenue, and Mr. Duncan Ross, M.P., for the heartfelt interest they have taken in securing the agreement of the Cabinet to such sweeping changes in the excise tariff.

ELECTRIC LIGHTING

Report By Mr. W. T. Ashbridge

We present herewith a condensed summary of the report made to the City Council by Mr. W. T. Ashbridge with reference to the installation of an electric lighting system for the town. The figures are very much in excess of previous rough estimates, and rather than see the far more important needs of water supply and fire protection shelved by spending on a lighting plant the bulk of the proceeds of the proposed issue of debentures, we hope the people of Kelowna will make up their minds to do without the luxury of electric light for a year or two and spend the money on a good water system instead. It is a pity we cannot have both, but it is evident in the present state of the money market it is not feasible to float sufficient bonds for both purposes. The estimate by Mr. Ashbridge is about double previous figures, and, assuming it to be correct,

if the cost of the water system should increase in like proportion, to put in both would mean an outlay of from \$80,000 to \$80,000,—somewhat staggering figures.

Electric light has no bearing on health one way or another, but water most distinctly has, and should the popular decision be for electric light, with water in a secondary position, there will be a disastrous awakening from a fool's paradise, should an epidemic of typhoid sweep the town or the business quarter go up in smoke.

Let "Water first, light after," be your motto!

Mr. Ashbridge recommends steam-power in preference to gas-producer on account of less initial cost and the latter being yet in a somewhat experimental stage. He suggests a 150 h.p. boiler and engine with 100 k.w. direct-connected generator, to be installed in a brick or concrete power-house large enough for future expansion of the plant, and situated near the lake for convenience in pumping, in the event of the installation of waterworks. His estimates are:

Power-house, brick or concrete	\$ 7,000
100 k.w. alternating generator, switchboard, transformers	5,700
150 h.p. boiler, 150 h.p. condensing engine, feed pump, condenser, heater, stack and piping	7,000
Distribution system, complete	6,300
Metres and service lines	2,000
Engineering and contingencies	2,000

Total \$ 30,000

Estimates of revenue and expenditure based on 75 h.p. being used for six hours daily and 180 house services:

EXPENDITURE	
Interest on \$30,000	\$ 1,500
Sinking fund, 40-year debentures	350
Depreciation	2,000
Labour	2,000
Fuel, oil &c.	2,000
Total	\$ 7,850

INCOME

180 house services at \$40 per annum	7,200
20 arc lamps at \$40	800
Total	\$ 8,000

Mr. Ashbridge considers the plant should meet expenses from the first year. He bases his figures on a metre rate of 15 cents per R.w. hour, which, he says, would be reasonable for steam-power.

LOCAL NEWS

Mr. W. A. Tooth paid a visit to Vernon on Tuesday.

Mr. Leon Gillard made a trip to Enderby on Tuesday.

Mrs. H. L. Wood went to Armstrong on Tuesday.

BORN.—To the wife of Mr. E. McIntyre, on March 24th, a son.

Mr. and Mrs. C. Burch came up from Summerland this morning.

BORN.—To the wife of Mr. Geo. A. Meikle, on March 18th, a son.

The Misses Batchelor, of Nahm, were visitors in town on Monday.

Mr. J. Bowes returned on Monday from a visit to the Coast.

Dr. Gadder returned on Wednesday from a business visit to the prairies.

Miss Kathleen Morrison returned on Wednesday from a prolonged sojourn in Manitoba.

The annual meeting of the Polo Club will be held in the Lake View Hotel, at 8 p.m., on Saturday, 28th inst.—Con.

In consequence of some cases of scarlet fever in town, Dr. Boyce, medical health officer, decided to close the public school today until Monday, April 6th.

A young man named Neilson accidentally shot himself in the thigh with a .22 rifle, on the west side of the lake last Saturday. He is receiving surgical care in town, and the wound is not regarded as serious.

The Hospital will be formally opened on Thursday next, April 2nd, at 2.30 p.m. by Mr. Price Ellison M. P. P. The building will be open for inspection from 2.30 to 5 p.m. The public are cordially invited to attend.—Con.

A union gospel temperance meeting will be held next Sunday evening after the usual service, in the Methodist Church. Special addresses and special music will combine to make a profitable hour. All welcome.—Con.

A young man named W. E. Gladstone died at the Nursing Home on Saturday. He had been suffering from a disease of the spinal cord, not spinal meningitis, for about six weeks. The deceased was about 32 years of age, and leaves a sister at Stettler, Alta. He had been employed on Maddock Bros' irrigation works at Okanagan Centre. The funeral took place on Sunday.

Capt. and Mrs. Knight entertained the members of the Choir and Quarterly Official Board of Kelowna Methodist Church on Friday evening, in honour of Mrs. W. Mawhinney, who leaves the city shortly for Vancouver. During the course of the evening Mr. A. S. Cox, choir master, read an address and afterwards presented Mrs. Mawhinney with a beautiful silver tea service as a token of the high esteem in which she is held by all.

The sacred concert to be given by the Kelowna Amateur Orchestral Society on Tuesday evening, March 31st, in Raymer's Hall, while the first of its kind to be held by the Society, promises some very fine music of the serious order. Selections will be rendered from the works of Handel, Haydn, Mendelssohn and other great composers, and solos will be sung by Mrs. Mitchell, of Penticton, and Messrs. T. Hill, G. Hassell and A. L. Meugens.

Mr. William Brent was married at Armstrong, on Tuesday, March 17th, to Miss Maria Houghton. Both have been residents of Mission Valley since the days of their childhood, and the friendship now ripened into matrimony is of long duration. The happy couple made a short honeymoon trip to Penticton, and returned here on Tuesday. They will take up their residence on Mr. Brent's 20-acre block near the Renshaw property. The Courier begs to extend congratulations.

A number of local Scotsmen met on Monday evening and organised a football club under the name of the Thistle Football Club. It is hoped to arrange a series of matches with local teams as well as with teams at other points in the Okanagan. The following officers were elected: Hon. Pres., T. W. Stirling; Pres., J. W. Jones; Vice-Pres., F. Fraser; Manager, H. S. Rose; Sec.-Treas., J. Fraser; Captain, J. Wardlaw; Vice-Capt., F. Fraser. Business Committee: D. Mills, Wm. Irvine, Wm. Hill. General Committee: A. McKay, H. Foster, F. Fraser.

LAND TO RENT
I have about 8 acres first-class land close to town to be rented or run on shares. Apply to,
H. Lysons,
Kelowna.

CAME ESTRAY NOTICE
There came to my premises about 1st May, 1907, one red heler, marked with white in face, no visible brand, slight under-cut on left ear. Owner can have same by proving property and paying expenses, otherwise will be sold in thirty days from date.
S. Edwards,
March 21, 1908 Wood's Lake.

South Okanagan Notes

(From Our Correspondent).
Messrs. Dalgleish and Martin arrived from England last Friday.

The football team has had a successful practice and will play Kelowna on Saturday, 28th inst.

At a committee meeting of the Sports Club Mr. Alan Crichton was elected captain of the Cricket Club, with Mr. W. D. Walker as vice-captain. The secretary was instructed to arrange a match with Revelstoke, the team expected to visit the Okanagan this season. Cricket and tennis by-laws were adopted.

Business Locals

RASPBERRY PLANTS—\$1.50 per 100, or \$0.00 per 500.—S. V. Bray, Kelowna.

Send for our descriptive catalogue of nursery stock. Address:—The Riverside Nurseries, Grand Forks, B. C.

The Beggar Prince Opera Co. will produce "Fra Diavolo" and "The Circus Clown" on Monday and Tuesday, April 6th and 7th, in Raymer's Hall. The company has secured very flattering press notices in the western towns in which it has played, notably one from the redoubtable Bob Edwards, of the Calgary "Eye Opener," who never fails to call a spade a spade and certainly does not deal out indiscriminate taffy. The Kelowna playing public may therefore turn out in full force secure in getting an evening's enjoyment for their money.

A SNAP

Fine town lot, \$250 cash or \$300 on terms. Apply
Ernest Snowsell,
Box 85, Kelowna.

LAND ACT

OSOYOOS LAND DISTRICT
DISTRICT OF YALE
Notice is hereby given, that, 30 days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for a licence to prospect for coal and petroleum on the following described land, situated in Osoyoos Division of Yale District:—Commencing at a post planted on the east shore of Okanagan Lake, about two and one-half miles north of Kelowna C.P.R. wharf; thence south 60 chains; thence east 80 chains; thence north 60 chains; thence west 80 chains to point of commencement; containing 480 acres, more or less.
Dated the 27th day of February, 1908.
Samuel G. Paul
Thomas Hair, Agent.

Publicity Essential

Since the action of the Board of Trade in asking the City Council to grant them \$500 for advertising purposes, various opinions may be heard on the street as to the wisdom and necessity of making any such expenditure. It seems almost superfluous to defend the principle of the advertising of localities, as it is now an accepted necessity, if a place is to be maintained in the ranks of the forward rush for population and prosperity. Everyone nowadays, unless he is hopelessly behind the age, believes in the axiom, "It pays to advertise," but there is always a division of opinion as to the shares in which the burden of advertising a district should be borne by the different classes of a community. Most people are ready to dismiss the question airily with the remark that, as the real estate men derive all the benefit from "boosting" literature, they should foot the bill. But there is an evident begging of the question here.

Do the real estate men really get the lion's share of the benefits from district advertising? A little thought will show that they do not. Taking the average sale of a twenty-acre lot at \$200 per acre, \$4000, at 5 per cent commission, the real estate man makes \$200 gross. From this has to be deducted, besides his general office expenses, rent &c., direct expenses connected with the sale, such as advertising the property, hire of livery teams, hotel bills, &c. His nett profit from the settlement of a family will probably be from 2 to 3 per cent. on the sale, say \$100. Against this, what does the addition of a family of consumers as permanent settlers mean to the business men of Kelowna?

We venture to say the profit of the real estate agent is but a third or fourth of the gross profit derived by the trade interests of the town in one year from an average family of five.

We have no brief for the real estate agents, but we believe in the principle of fair play, and we do not see the spirit of fairness in levying the bulk of the cost of advertising the district on the real estate dealers and the two-score subscribers to the Board of Trade, when the general business interests of the town profit largely by the addition of each new settler. More than that, not only do the business interests profit, but every resident of the town that owns a foot of land profits in proportions. Each new settler means some more land put in use or occupied, and the denser the population the higher will become land values. The progress of the city during the past two years is eminent proof of this. Again, and this consideration should appeal to the economically-minded, each new property-owner within the city means a new tax-payer to share the burdens of municipal government. We need heaps of things, not only the electric light and water of our immediate dreams, but many things in the near future. A new school looms up as a pressing necessity, while, if we are to make Kelowna thoroughly comfortable as a place of residence, a sewerage system must soon be considered.

Are we, then, to encourage or discourage immigration? Do we want a rapid influx of new blood to aid us in securing these utilities of modern civilization, or are we to remain in a snail's shell of hesitancy, afraid to spend a dollar to obtain a hundred?

Every citizen in the town is as vitally interested in the question of publicity as the keenest real

estate man that ever chased a client, but the general public does not seem to realise it. Take thought to yourselves if it is generous or fair for the twelve hundred people of Kelowna to let the forty-odd members of the Board of Trade and half-a-dozen real estate agents pay the piper to play new settlers into the town and district. The only fair way to distribute the cost of publicity is to make a liberal grant from the civic funds, so that every tax-payer contributes his share. When it is considered what other towns are doing to advertise their attractions, Kelowna would appear far behind. Regina has appropriated \$5,000 to be given to the Board of Trade for advertising purposes, yet her population is not by any means ten times that of Kelowna. Victoria last year made her Tourist Association a grant of \$7,500. and, in spite of a deficit of \$70,000 on last year's budget, is considering a similar amount this year. Nelson, by public subscription, entertainments, donations, &c., raised nearly \$2,500 for her Twenty Thousand Club last year, and Grand Forks proposes to take action along the same lines. And it all pays, no doubt whatever.

It is estimated that 250,000 people visited Victoria last year, the bulk of them impelled to do so by the efforts of the Tourist Association, either through the attractive literature issued, by the rates obtained by them from transportation companies or by arrangements made for the comfort and enjoyment of excursion parties and conventions of fraternal and similar organisations. Besides the tourists who spent large sums of money in the city, many of the visitors remained to become permanent settlers, and it is scarcely possible to measure the benefit accruing to Victoria either in actual dollars or in valuable new blood.

In addition to wide-spread distribution of beautifully-illustrated pamphlets and folders, the Victoria Tourist Association sent their secretary, Mr. Cuthbert, lecturing throughout California and other Pacific states. Much of this work can be done by Kelowna on a smaller and proportionate scale, if the city Council will ear-mark sufficient funds to make a beginning, and the returns will repay the expenditure a hundredfold.
